Chromogranin A Antibody, Mouse MAb

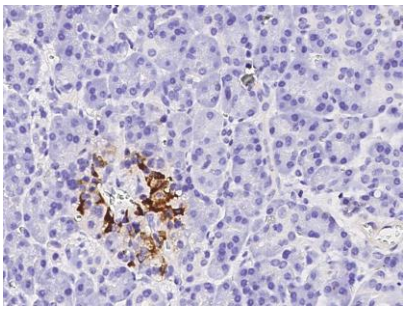

Catalog Number: **100256-MM02**

GENERAL INFORMATION	
Immunogen:	A synthetic peptide corresponding to the N-terminus of the Human Chromogranin A
Preparation	This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with a synthetic peptide corresponding to the N-terminus of the Human Chromogranin A. The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.
Ig Type:	Mouse IgG1
Clone ID:	02
Specificity:	Human Chromogranin A
Formulation:	0.2 μm filtered solution in PBS
Storage:	This antibody can be stored at 2℃-8℃ for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20℃ to -80℃. Preservative-Free. Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.
APPLICATIONS	
Applications:	IHC-P
RECOMMENDED CONCENTRATION	
IHC-P	IHC-P: 1:50-1:200

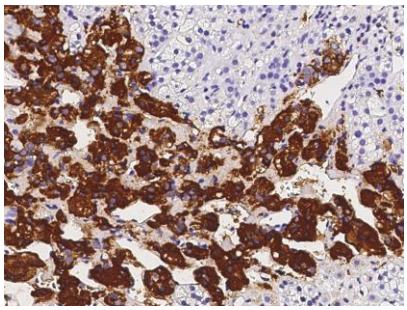

Please Note: Optimal concentrations/dilutions should be determined by the end user.

Chromogranin A Antibody, Mouse MAb

Catalog Number: **100256-MM02**

Immunochemical staining of human ChromograninA in human pancreas with mouse monoclonal antibody (1:100, formalin-fixed paraffin embedded sections).

Immunochemical staining of human ChromograninA in human adrenal gland with mouse monoclonal antibody (1:100, formalin-fixed paraffin embedded sections).
