ATF1/Protein TREB36 Antibody, Rabbit PAb, Antigen Affinity Purified

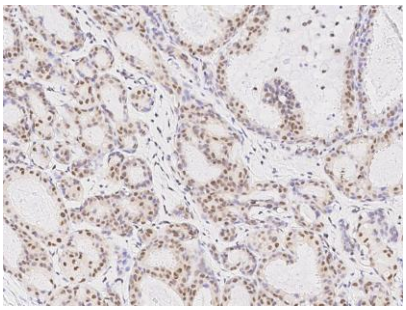

Catalog Number: **100841-T10**

GENERAL INFORMATION	
Immunogen:	A synthetic peptide corresponding to the N-terminus of the Human ATF1/Protein TREB36
Preparation	Produced in rabbits immunized with a synthetic peptide corresponding to the N-terminus of the Human ATF1/Protein TREB36, and purified by antigen affinity chromatography.
Ig Type:	Rabbit IgG
Specificity:	Human ATF1/Protein TREB36
Formulation:	0.2 μm filtered solution in PBS
Storage:	This antibody can be stored at 2℃-8℃ for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20℃ to -80℃. Preservative-Free. Avoid repeated freeze-thaw cycles.
Alternative Names:	EWS-ATF1,FUS/ATF-1,TREB36
APPLICATIONS	
Applications:	IHC-P,ICC/IF
RECOMMENDED CONCENTRATION	
IHC-P	IHC-P: 1:250-1:1000
ICC/IF	ICC/IF: 1:300-1:10000

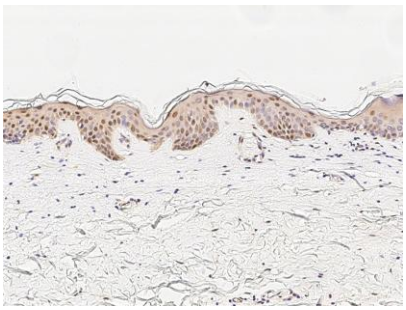

Please Note: Optimal concentrations/dilutions should be determined by the end user.

ATF1/Protein TREB36 Antibody, Rabbit PAb, Antigen Affinity Purified

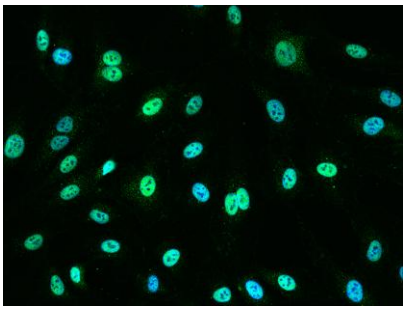

Catalog Number: **100841-T10**

Immunochemical staining of human ATF1 in human breast carcinoma with rabbit polyclonal antibody (1:500, formalin-fixed paraffin embedded sections).

Immunochemical staining of human ATF1 in human skin with rabbit polyclonal antibody (1:500, formalin-fixed paraffin embedded sections).

Immunofluorescence staining of ATF1 in HUVEC cells. Cells were fixed with 4% PFA, permeabilzed with 0.3% Triton X-100 in PBS,blocked with 10% serum, and incubated with rabbit anti- ATF1 polyclonal antibody (1:1000) at 4℃ overnight. Then cells were stained with the Alexa Fluor®488-conjugated Goat Anti-rabbit IgG secondary antibody (green) and counterstained with DAPI (blue). Positive staining was localized to nucleus.
