EPOR/Erythropoietin Receptor Antibody, Mouse MAb

Catalog Number: **10707-MM11**

GENERAL INFORMATION	
Immunogen:	Recombinant Human EPOR/Erythropoietin Receptor Protein (Catalog#10707-H08H)
Preparation	This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human EPOR/Erythropoietin Receptor (rh EPOR/Erythropoietin Receptor; Catalog#10707-H08H; NP_000112.1; Met1-Pro250). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.
Ig Type:	Mouse IgG1
Clone ID:	11
Specificity:	Human EPOR/Erythropoietin Receptor
Formulation:	0.2 μm filtered solution in PBS
Storage:	This antibody can be stored at 2℃-8℃ for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20℃ to -80℃. Preservative-Free. Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.
APPLICATIONS	
Applications:	ELISA
RECOMMENDED CONCENTRATION	
ELISA	ELISA: 1:1000-1:2000 This antibody can be used at 1:1000-1:2000 with the appropriate secondary reagents to detect Human EPOR/Erythropoietin Receptor.

Please Note: Optimal concentrations/dilutions should be determined by the end user.
