CD3e / CD3 epsilon Antibody, Mouse MAb

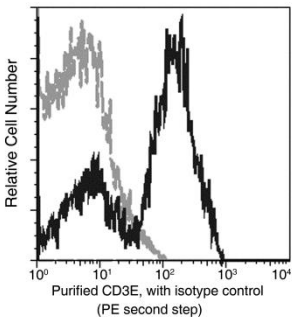

Catalog Number: **10977-M001**

Flow cytometric analysis of Human CD3 expression on human peripheral blood lymphocytes. Cells were stained with purified Mouse anti-Human CD3, then a PE-conjugated second step antibody. The histogram were derived from events with the forward and side light-scatter characteristics of viable lymphocytes.

Flow cytometry was performed on a BD FACSCalibur flow cytometry system. Please refer to www.sinobiological.com/Flow-Cytometry-FACS-Protocols-a-750.html for technical protocols.
