CD82/KAI-1 Antibody, Mouse MAb

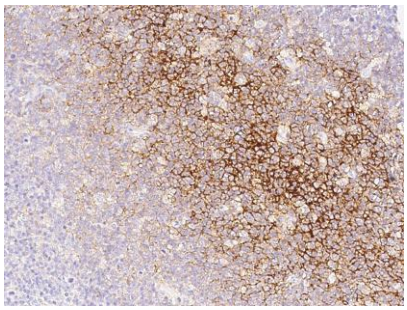

Catalog Number: **12275-MM07**

GENERAL INFORMATION	
Immunogen:	Recombinant Human CD82/KAI-1 Protein (Catalog#12275-H08H)
Preparation	This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human CD82/KAI-1 (rh CD82/KAI-1; Catalog#12275-H08H; P27701-1; Gly111-Leu228). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.
Ig Type:	Mouse IgG1
Clone ID:	07
Specificity:	Human CD82/KAI-1
Formulation:	0.2 μm filtered solution in PBS
Storage:	This antibody can be stored at 2℃-8℃ for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20℃ to -80℃. Preservative-Free. Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.
APPLICATIONS	
Applications:	IHC-P
RECOMMENDED CONCENTRATION	
IHC-P	IHC-P: 1:400-1:2000

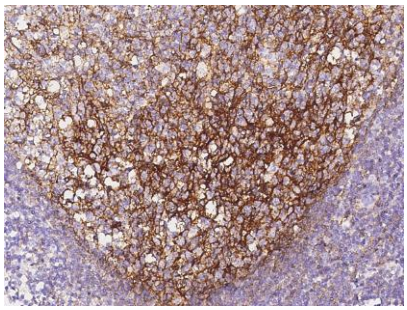

Please Note: Optimal concentrations/dilutions should be determined by the end user.

CD82/KAI-1 Antibody, Mouse MAb

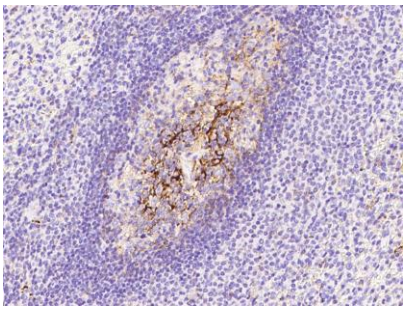

Catalog Number: **12275-MM07**

Immunochemical staining of human CD82 in human tonsil with mouse monoclonal antibody at 1:1000 dilution, formalin-fixed paraffin embedded sections.

Immunochemical staining of human CD82 in human appendix with mouse monoclonal antibody at 1:1000 dilution, formalin-fixed paraffin embedded sections.

Immunochemical staining of human CD82 in human spleen with mouse monoclonal antibody at 1:1000 dilution, formalin-fixed paraffin embedded sections.
