| GENERAL INFORMATION       |                                                                                                                                                                                                                                                                                                                                                                                                     |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                | Recombinant Human ASF1B Protein (Catalog#14382-H08B)                                                                                                                                                                                                                                                                                                                                                |
| Preparation               | This antibody was obtained from a rabbit immunized with purified, recombinant Human ASF1B (rh ASF1B; Catalog#14382-H08B; Q9NVP2; Met1-Ile202).                                                                                                                                                                                                                                                      |
| Ig Type:                  | Rabbit IgG                                                                                                                                                                                                                                                                                                                                                                                          |
| Clone ID:                 | 002                                                                                                                                                                                                                                                                                                                                                                                                 |
| Specificity:              | Human ASF1B                                                                                                                                                                                                                                                                                                                                                                                         |
| Formulation:              | 0.2 µm filtered solution in PBS                                                                                                                                                                                                                                                                                                                                                                     |
| Storage:                  | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free.<br>Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles. |
| APPLICATIONS              |                                                                                                                                                                                                                                                                                                                                                                                                     |
| Applications:             | IHC-P                                                                                                                                                                                                                                                                                                                                                                                               |
| RECOMMENDED CONCENTRATION |                                                                                                                                                                                                                                                                                                                                                                                                     |
| IHC-P                     | IHC-P: 1:100-1:500                                                                                                                                                                                                                                                                                                                                                                                  |

**Please Note: Optimal concentrations/dilutions should be determined by the end user.**
