AMH Antibody, Rabbit PAb, Antigen Affinity Purified

Catalog Number: **17500-T26**

GENERAL INFORMATION	
Immunogen:	Recombinant Human AMH Protein (Catalog#17500-H07H)
Preparation	Produced in rabbits immunized with purified, recombinant Human AMH (rh AMH; Catalog#17500-H07H; NP_000470.2; Leu25-Arg560). AMH specific IgG was purified by Human AMH affinity chromatography.
Ig Type:	Rabbit IgG
Specificity:	Human AMH
Formulation:	0.2 μm filtered solution in PBS
Storage:	This antibody can be stored at 2℃-8℃ for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20℃ to -80℃. Preservative-Free. Avoid repeated freeze-thaw cycles.
Alternative Names:	MIF,MIS
APPLICATIONS	
Applications:	ELISA,IHC-P,ICC/IF
RECOMMENDED CONCENTRATION	
IHC-P	IHC-P: 1:200-1:1000
ICC/IF	ICC/IF: 1:100-1:500
ELISA	ELISA: 1:5000-1:10000 This antibody can be used at 1:5000-1:10000 with the appropriate secondary reagents to detect Human AMH.

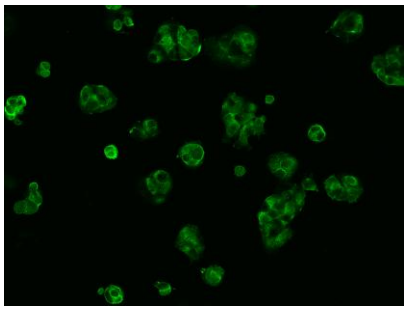

Please Note: Optimal concentrations/dilutions should be determined by the end user.

AMH Antibody, Rabbit PAb, Antigen Affinity Purified

Catalog Number: **17500-T26**

Immunochemical staining of human AMH in human testis with rabbit polyclonal antibody at 1:300 dilution, formalin-fixed paraffin embedded sections.

Immunofluorescence staining of AMH in MCF7 cells. Cells were fixed with 4% PFA, permeabilzed with 0.1% Triton X-100 in PBS,blocked with 10% serum, and incubated with rabbit anti-Human AMH polyclonal antibody (dilution ratio 1:200) at 4℃ overnight. Then cells were stained with the Alexa Fluor®488-conjugated Goat Anti-rabbit IgG secondary antibody (green). Positive staining was localized to Cytoplasm.
