clathrin light chain A/CLTA Antibody, Rabbit PAb, Antigen Affinity Purified

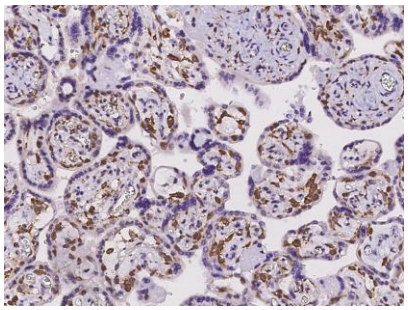

Catalog Number: **200697-T10**

GENERAL INFORMATION	
Immunogen:	E. coli-derived Human clathrin light chain A/CLTA fragment
Preparation	Produced in rabbits immunized with E. coli-derived Human clathrin light chain A/CLTA fragment, and purified by antigen affinity chromatography.
Ig Type:	Rabbit IgG
Specificity:	Human clathrin light chain A/CLTA
Formulation:	PBS, pH7.0 with 0.03% Proclin300
Storage:	This antibody can be stored at 2℃-8℃ for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20℃ to -80℃. Preservative-Free. Avoid repeated freeze-thaw cycles.
Alternative Names:	LCA
APPLICATIONS	
Applications:	IHC-P,ICC/IF
RECOMMENDED CONCENTRATION	
IHC-P	IHC-P: 1:200-1:1000
ICC/IF	ICC/IF: 1:100-1:500

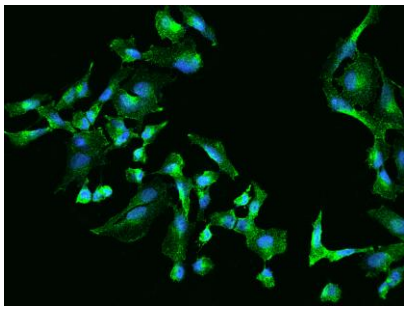

Please Note: Optimal concentrations/dilutions should be determined by the end user.

clathrin light chain A/CLTA Antibody, Rabbit PAb, Antigen Affinity Purified

Catalog Number: **200697-T10**

Immunochemical staining of human CLTA in human placenta with rabbit polyclonal antibody at 1:500 dilution, formalin-fixed paraffin embedded sections.

Immunofluorescence staining of CLTA in U251MG cells. Cells were fixed with 4% PFA, permeabilzed with 0.1% Triton X-100 in PBS,blocked with 10% serum, and incubated with rabbit anti-Human CLTA polyclonal antibody (dilution ratio 1:200) at 4℃ overnight. Then cells were stained with the Alexa Fluor®488-conjugated Goat Anti-rabbit IgG secondary antibody (green) and counterstained with DAPI (blue).Positive staining was localized to Cytoplasm.
