CD3 epsilon / CD3e Antibody, Mouse MAb

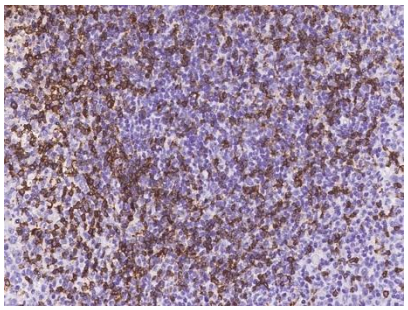

Catalog Number: **90047-MM12**

GENERAL INFORMATION	
Immunogen:	Recombinant Rhesus CD3 epsilon / CD3e Protein (Catalog#90047-C08H)
Preparation	This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Rhesus CD3 epsilon / CD3e (Catalog#90047-C08H; XP_001097204.1; Met1-Asp117). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.
Ig Type:	Mouse IgG2a
Clone ID:	12
Specificity:	Rhesus (Immunogen Species, but no sample been validated), Cynomolgus (Cross-reactivity species validated by IHC)
Formulation:	0.2 μm filtered solution in PBS
Storage:	This antibody can be stored at 2 -8 for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20 to -80 . Preservative-Free. Avoid repeated freeze-thaw cycles.
Alternative Names:	CD3E
APPLICATIONS	
Applications:	IHC-P
RECOMMENDED CONCENTRATION	
IHC-P	IHC-P: 1:100-1:1000

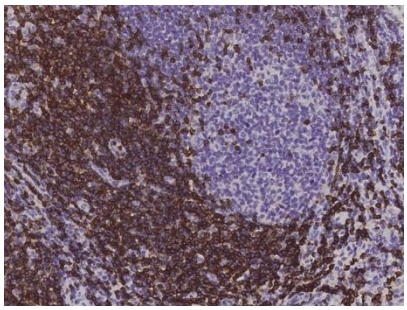

Please Note: Optimal concentrations/dilutions should be determined by the end user.

CD3 epsilon / CD3e Antibody, Mouse MAb

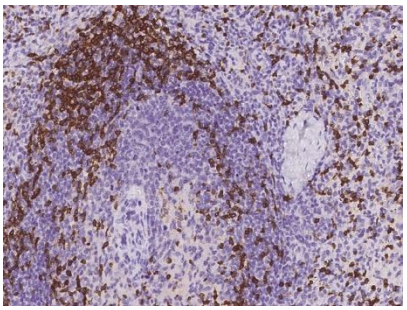

Catalog Number: **90047-MM12**

Immunochemical staining of rhesus CD3e in cynomolgus tonsil with mouse monoclonal antibody at 1:200 dilution, formalin-fixed paraffin embedded sections.

Immunochemical staining of rhesus CD3e in cynomolgus lymph node with mouse monoclonal antibody at 1:200 dilution, formalin-fixed paraffin embedded sections.

Immunochemical staining of rhesus CD3e in cynomolgus spleen with mouse monoclonal antibody at 1:200 dilution, formalin-fixed paraffin embedded sections.
